The Honorable Frank O'Bannon
Governor
206 Statehouse
Indianapolis, Indiana 46204

Senator Robert Garton
Chairman Legislative Council
State House
Indianapolis, Indiana 46204

Dear Sirs:

On behalf of the Commissioners and staff and in compliance with the requirements of IC 8-1-1-14, I am hereby filing with you the Annual Report of the Indiana Utility Regulatory Commission for Fiscal Year 1998-99. This Annual Report has been prepared for the benefit of the people of the State of Indiana in conformity with the requirements of IC 8-1-1-14 (b).

The Commission's mission is to assure that utilities and others use adequate planning and resources to make readily available to the public the provision of safe and reliable utility services at reasonable cost. In fulfilling this mission, the Commission presides as trier of fact in formal administrative proceedings. The Commission also performs various ministerial functions necessary to enforce statutes, administrative rules, and Commission orders. The Commission also may initiate proceedings and take informal action to fulfill its statutory mandate. In each of these roles, the Commission undertakes the challenge of balancing customers' interest in affordable rates for safe and reliable utility service against the utilities' need to attract capital and collect adequate funds to operate.

I hope that this report will aid your efforts to understand and address these changes. The Commissioners and staff remain ready to assist the Governor and General Assembly in the development and implementation of progressive utility regulatory laws for Indiana.

Sincerely,

William D. McCarty
Chairman

COMMISSION RESPONSIBILITY

The Commission is a fact-finding body that hears evidence in cases filed before it and makes decisions based on the evidence presented in those cases. An advocate of neither the public nor the utilities, the IURC is required by state statute to make decisions that balance the interests of all parties to ensure the utilities provide adequate and reliable service at reasonable prices.

The IURC regulates electric, natural gas, telecommunications, steam, water and sewer utilities. These utilities may be investor-owned, municipal, not-for-profit, or cooperative utilities, or they might operate as water conservancy districts.

The Commission does not regulate municipal sewer utilities.

Indiana statutes allow municipal utilities, not-for-profit corporations, and co-operative telephone and electric companies to remove themselves from the Commission's jurisdiction by ordinance of the local governing body or a majority vote of the people in the municipality. As of June 30, 1999, 453 utilities have withdrawn from the Commission's jurisdiction.

The Commission regulates various aspects of the public utilities' business including the rates, financing, bonding, environmental compliance plans and service territories. The Commission has regulatory oversight concerning construction projects, and acquisition of additional plants and equipment.

The Commission has authority to initiate investigations of all utilities' rates and practices.

The IURC receives its authority from Indiana Code Title Eight. Numerous court decisions further define the Commission's function.

The Commission promulgates its "*Rules and Regulations Concerning Practice and Procedure*" as well as "*Rules and Regulations and Standards of Service*" to govern each type of utility. The Commission through a process involving public hearings that also require approval from the Attorney General, the Secretary of State and the Governor makes changes in the rules.

Originally a state agency established to regulate railroad activity, the Indiana Utility Regulatory Commission has undergone great change since it was established as the Railroad Commission in the late 1800s. By 1913, the agency was given regulatory responsibility over natural gas, water, electric, telephone and transportation services, and it was re-named the Public Service Commission.

In 1987, the General Assembly changed the name of the agency once again and the PSCI became the IURC.

The Commission no longer regulates either railroads or transportation.

MISSION STATEMENT

The Commission's mission is to assure that utilities and others use adequate planning and resources for the provision of safe and reliable utility services at reasonable cost.

PROCEDURES

Utilities must follow administrative law requirements in proceedings before the Indiana Utility Regulatory Commission. Those proceedings include requests for rate changes and territorial authority.

Hearing Procedure

- The utility files a petition with the Commission which is given a Cause Number and assigned to an Administrative Law Judge and staff. A Commissioner may also be assigned.
- A pre-hearing conference is held to establish a schedule for the submittal of evidence both for and against the utility's petition.
- The utility pre-files its written case-in-chief, which contains evidence in support of its proposal.
- Other parties, including the Office of the Utility Consumer Counselor (OUCC), file their cases-in-chief, which contain evidence in support of their positions. The OUCC is a separate state agency whose responsibility is to represent ratepayers in proceedings before the Commission.
- A hearing may be held in the service territory of the utility to allow customers of the utility to express their opinions concerning the utility's petition.
- The utility and all parties to the case present their testimony, including expert testimony, in a public hearing at which expert witnesses may be cross-examined.
- The utility may present rebuttal testimony after all other evidence in the case is heard.
- In most cases, parties to the case file proposed Orders with the Administrative Law Judge.
- The Administrative Law Judge submits a proposed Order for review by the Commissioners.
- The Commission issues a decision on the proposed Order, either directing modifications, approving or rejecting the utility's original proposal. These decisions are made at Commission conferences.

Commission conferences are generally held each Wednesday at 1:30 p.m. EST in Room E-306 in the Indiana Government Center South.

CHAIRMAN WILLIAM D. McCARTY

William D. McCarty was appointed chairman of the Indiana Utility Regulatory Commission on June 23, 1997, by Governor Frank O'Bannon. Chairman McCarty's term runs to March 31, 2001.

Chairman McCarty chairs a five member commission that administers the laws regulating utilities that provide electric, natural gas, telecommunications, water, or private sewer services. The Commission oversees an agency employing approximately 70 people, including a technical staff of engineers, accountants and economists; a legal staff; a staff of administrative law judges; and a pipeline safety staff that is jointly funded by the federal government and the State of Indiana.

An attorney, Chairman McCarty served for 15 years as a state senator prior to joining the Commission. He served as a member of the Senate Commerce Committee and the IURC Committee on Practice and Procedure. He held the position of assistant to the vice president for business affairs at Ball State University prior to his appointment to the Commission. In addition, he maintained a private law practice for 18 years.

Chairman McCarty received a bachelor's degree Magna cum laude from Wabash College, where he was inducted into Phi Beta Kappa. He went on to earn a master's degree in international relations from The Johns Hopkins University and a law degree from the Indiana University School of Law at Indianapolis. He has also served as an instructor of history, political science and economics at Anderson University.

COMMISSIONER DAVID E. ZIEGNER

David Ziegner was appointed to the Indiana Utility Regulatory Commission on August 25, 1990, by Governor Evan Bayh and re-appointed to a full, four-year term in December 1995. A Democrat, Mr. Ziegner has continued to serve with the Commission through June 1999.

Commissioner Ziegner is a member of the National Association of Utility Regulatory Commissioners' Committee on Electricity and is a member of the Mid-America Regulatory Conference.

Mr. Ziegner is a native Hoosier. He earned his B.A. in history and journalism from Indiana University in 1976. He gained his J.D. degree from the Indiana University School of Law in Indianapolis in 1979 and was admitted to the Indiana Bar and U.S. District Court in that same year.

As a staff attorney for the Legislative Services Agency, Mr. Ziegner developed his background in both utility and regulatory issues. As the agency's senior staff attorney, he specialized in legislative issues concerning utility reform, local measured telephone service, the citizens utility board and pollution control. Most recently, Mr. Ziegner was the General Counsel for the IURC.

Mr. Ziegner, his wife, Barbara, and their daughter, Jennifer, reside in Greenwood and are members of the Northminster Presbyterian Church. He is an avid follower of all Indiana University sports and has been a fan of the St. Louis Cardinals for over 30 years.

COMMISSIONER G. RICHARD KLEIN

G. Richard "Dick" Klein was appointed to the Indiana Utility Regulatory Commission on January 31, 1990, by Governor Evan Bayh and was reappointed on January 1, 1994 and again in 1998. A Democrat, Mr. Klein's term in office will expire January 1, 2002.

Commissioner Klein is a member of the National Association of Regulatory Utility Commissioners' Committee on Communications and a member of the Mid-America Regulatory Conference.

Before being appointed to the Commission, Mr. Klein worked as a construction electrician from 1955 to 1972, and in 1972 was elected as the Business Manager/Financial Secretary for the International Brotherhood of Electrical Workers Local 873. He also served as President of the North Central Building Trades Council and President of the Howard/Tipton County AFL-CIO Central Labor Council. He has also served in leadership capacities for the United Way, Salvation Army and several committees established by the Kokomo city administrations.

Mr. Klein and his wife Mary, live in Morgantown and have three grown children.

COMMISSIONER CAMIE J. SWANSON-HULL

Camie J. Swanson-Hull was appointed to the Indiana Utility Regulatory Commission on July 15, 1996, by Governor Evan Bayh. An Independent, Ms. Swanson-Hull's appointment expires January 1, 2000.

From 1983 to 1993, Commissioner Swanson-Hull worked as an attorney in the law firm of Rogers, Jones and Swanson-Hull, becoming partner in 1989. She subsequently served as a deputy attorney general and section chief for the Indiana Attorney General. From 1994 to her appointment, she was Director of Volunteer Services for the American Lung Association.

She is a member of the National Association of Regulatory Utility Commissioners Energy Resources and the Environment Committee; the Ad Hoc Committee on Consumer Affairs; and she is the vice-chair of the Mentoring Committee. She is a member of the Mid-America Regulatory Conference; and a member of the Advisory Council for the New Mexico State University Center for Public Utilities. She is also a member of the Advisory Council of the Board of Directors of the Electric Power Research Institute.

Commissioner Swanson-Hull earned a bachelor's degree with distinction from Indiana University in Fort Wayne, Indiana and a Juris Doctor degree from the Indiana University School of Law at Bloomington.

Ms. Swanson-Hull and her husband reside in Noblesville and have three grown sons.

COMMISSIONER JUDITH G. RIPLEY

Judith Ripley was appointed to the Indiana Utility Regulatory Commission on August 17, 1998 by Governor Frank O'Bannon. A Republican, Commissioner Ripley's term expires April 1, 2002.

A life-long resident of Indiana, Commissioner Ripley studied liberal arts and education at Indiana University and the University of Cincinnati. She received her Bachelor of Laws degree from the Indiana University School of Law in Indianapolis. Until her appointment to the IURC, Commissioner Ripley practiced law in Indianapolis. She was a past member of the Board of Governors of the Indianapolis Bar Association, an appointee to the Marion County Municipal Court Nominating Commission and presently is completing a term as Delegate to the State Bar Association.

Office of External Affairs

As Executive Director of External Affairs, Michael Leppert is the senior supervisory authority of the Commission's consumer services, media relations, and legislative efforts.

The Executive Director of External Affairs serves as the Commission's liaison to the General Assembly and works with the Commission's legislative team to monitor, track, and analyze utility matters before the state legislature. The Executive Director also helps elected officials with utility-related constituent matters.

In addition, Mr. Leppert has served on the Board of Directors of the *Coalition to Keep Indiana Warm* since its inception. This not-for-profit organization, a partnership of utility, community, and government representatives, strives to provide heat to low-income Hoosiers.

The Office of External Affairs is comprised of the Commission's Consumer Affairs and Public Information Divisions. The Commission's Consumer Affairs Division mediates disputes between utilities and consumers and deals with consumer education issues. The Public Information Division provides information to various groups about Commission decisions and utility regulation.

Detailed descriptions of these divisions are found later in this section.

Office of the Secretary

Director of Operations Joseph Sutherland is the senior supervisory authority over all aspects of the internal operations of the Commission. The Director of Operations reports to the Commissioners, manages ancillary functions such as human resources and data processing, and all Commission financial affairs including the agency's budget. The Commission, the Office of Utility Consumer Counselor and certain other costs related to utility regulation are funded by fees paid by utilities.

The Director of Operations also serves as the Commission's Executive Secretary, supervising the administrative functions associated with the Commission, such as preparing agendas for the Commission's conferences, weekly dockets and minutes of the Commission meetings.

The Director's immediate staff performs several additional functions including daily accounting, tasks, purchasing, records maintenance, personnel management arranging field hearing sites, and performing special projects. The staff also receives and file stamps all documents filed with the Commission including petitions and evidence filed in ongoing cases.

In 1999, the Office of the Secretary was reorganized to include the Commission's Court Reporting, Data Processing, Human Resources, and Pipeline Safety Divisions. Descriptions of these Commission operations are found later in this report.

An outline of the Commission's budget is found in the Reports Section.

Administrative Law Judges

Chief Judge Clayton Miller oversees a staff of five attorneys who perform the duties of Administrative Law Judges for the Commission. All petitions filed with the Commission are assigned to a specific judge who oversees the entire process until a final order is issued.

The law judges handle procedural matters for each case, and they preside over hearings that are conducted in a manner similar to a courtroom proceeding. After the hearings are concluded, the presiding judge considers all the evidence in the record of the case and writes a proposed order containing the judges' recommendation for Commission action. The proposed order is then submitted to the Commissioners for their consideration in making a final decision on the case.

The judges act as legal advisors to the Commissioners by interpreting and applying the legal principles established by Indiana and federal statutes, as well as established case law.

The judges generally are responsible for a caseload of about 40 separate cases at any given time. General Administrative Orders in 1995 direct the Commission to rule on most petitions within 10 months of the filing of the petitioner's case-in-chief.

Because of the highly technical nature of many cases, the judges rely on the Commission's technical staff for help in analyzing accounting, engineering and matters of economic impact.

General Counsel

General Counsel Nikki Shoultz and Assistant General Counsel Kristina Kern Wheeler conduct research and analyze legal questions for the Commissioners and staff. They act as the legal representatives of the Commission to the public, and answer questions from the public about Commission jurisdiction, procedure and statutory interpretation. They are also the Commission's legal representatives to other state agencies.

As part of the Commission's legislative team, the attorneys monitor and analyze bills that would affect the Commission and the utility industry. As the liaison to the Attorney General, the attorneys work with that agency on appeals of Commission Orders in the courts as well as other litigation involving the Commission.

As the division responsible for agency rulemakings, the General Counsel drafts final versions of rules, presides over public hearings and follows the rules through the statutory process.

The General Counsel works closely with the Consumer Affairs Division to resolve customer complaints involving legal issues. The division also negotiates and monitors agency contracts with third parties for equipment and services, and works with counsel from other state commissions, federal agencies, and the National Association of Regulatory Utility Commissioners to track a wide range of national utility and regulatory issues.

Director of Utilities

Director of Utilities Robert Glazier supervises the Commission's Technical Staff, which includes the Energy Policy, Engineering, and Rates Divisions.

The Technical Staff advises Commissioners and Administrative Law Judges on technical matters in cases filed before the Commission and, in selected cases, presents testimony during administrative law proceedings.

The Technical Staff prepares comments for the Commission on proposed rulemakings and other matters being considered by the Federal Energy Regulatory Commission and the Securities and Exchange Commission. The Technical Staff prepares various documents including reports to the General Assembly's Regulatory Flexibility Committee regarding the energy industry. Those reports contain an annual industry overview regarding potential legislative changes needed for the industries.

The Director of Utilities supervises the activities of the State Utility Forecasting Group at Purdue University as well as coordinating Technical Staff input on rulemakings initiated by the Office of General Counsel.

The Technical Staff also contributes to the preparation of the budget and reviews legislation affecting utility regulation.

Telecommunications

Sandy Ibaugh oversees the Telecommunications Division, which was created in 1996 in response to the passage of the Telecommunications Act of 1996 (TA-96) - federal legislation aimed at opening the local exchange industry to competition.

Under the federal act, the Commission has reviewed and approved competitive interconnection agreement filings, and acted as arbitrator and/or mediator to resolve interconnection disputes. Also, as a result of the federal act, other filings submitted to the Commission by the telecommunications industry has dramatically increased as companies seek to either enter the local exchange service field, the long-distance service market, or expand their service offerings.

Ms. Ibaugh and Assistant Director Stan Sallier supervise a team of analysts devoted solely to telecommunications issues. Staff assignments include the preparation of reports regarding the state's telecommunications industry to the General Assembly's Regulatory Flexibility Committee and involvement in proceedings before the Federal Communications Commission.

Since its formation, the Division has provided technical assistance on cases regarding the interconnection of incumbent local exchange companies to new competitors, certificates of territorial authority for competitive providers of local exchange and long-distance services, wholesale service tariffs, universal service issues, as well as other state specific matters.

Consumer Affairs

Consumer Affairs Director Faith Goff mediates disputes between utilities and consumers and deals with consumer education issues.

The division reviews and revises the “*Rules, Regulations and Standards of Service*” for the Indiana utilities. These rules must be followed by the utilities when dealing with their customers.

The division uses information gathered in the complaint handling process to alert the Commission to any consumer problems. If the office discovers a problem developing, it may request an investigation be conducted by the IURC or it may suggest to the utility’s customers that they circulate a petition requesting a Commission investigation.

Consumer Affairs administers the Commission’s rules on extended area telephone service (EAS) and other calling options. EAS allows telephone customers in one exchange to call customers in another without being assessed a toll charge.

The Consumer Affairs Division also attends Commission field hearings to answer any individual consumer questions or complaints that may arise during the hearing.

A listing of complaints for the fiscal year is found in the Reports Section.

Public Information

Public Information Director Ryan Soultz provides information to various groups both inside and outside the Commission. He is responsible for informing the media, both general news and industry trade publications, about Commission actions and utility regulation.

The Public Information Division is responsible for the oversight of the agency's internet website. The home page provides daily information regarding hearings before the Commission and updates for actions taken by the agency. The page contains bill information for residential customers, complaint information and descriptions of the Commission’s duties.

The Public Information staff frequently provides information related to Commission actions and utility operations to utility consultants, financial analysts and individual members of the public.

The division issues news releases related to decisions made at Commission conferences, publishes yearly comparisons of residential electric and natural gas bills, and assists the media at all proceedings conducted by the Commission.

As the news source for the Commission, the division reviews statewide and national publications for utility-related news and publishes a daily intra-agency electronic newspaper.

Court Reporting

Chief Reporter Lynda Ruble and Reporter Amy Tokash attend and report all utility hearings as well as Commission conferences and field hearings held throughout the state.

The reporters prepare the official written transcripts of these hearings and Commission conferences upon request.

In July 1995, the division acquired Computer Aided Transcription stenography machines, which enable the reporters to produce transcripts in a more expeditious manner by providing transcripts within 24 hours of request.

The division is also responsible, upon request, for preparing the detailed Record of Proceedings for the Indiana Court of Appeals. This process encompasses not only preparing the official transcript from the hearing(s) conducted in a cause, but also entails the preparation and inclusion of all exhibits identified and offered into evidence during the hearings. It also includes the preparation and inclusion of all pleadings within the cause.

Human Resources

Human Resources Coordinator Ja-Deen Johnson's primary functions include the enforcement of all federal and state regulations and policies, recruitment, training and development, labor relations issues, and all aspects of employee personnel management, including an agency evaluation program, compensation and benefits.

The Human Resources Coordinator also implements personnel policies, methods, procedures and standards for the Commission and maintains all Commission personnel files.

Pipeline Safety

Pipeline Safety Division Director Larry Nisley administers federal and state pipeline safety standards that apply to the natural gas industry. These standards apply to all gas operators in Indiana regardless of whether they have withdrawn from the Commission's economic jurisdiction.

Pipeline Safety Engineers enforce the minimum safety standards established by the U.S. Department of Transportation as they apply to the design, installation, inspection, testing, construction, extension, operation, replacement, and maintenance of the pipeline facilities of all gas pipeline operators.

The division is funded jointly by the Commission and the U.S. Department of Transportation.

The division monitors the Federal Department of Transportation's Anti-Drug program for gas operators within Indiana. Additionally, the division regularly sponsors or participates in various gas safety seminars each year. Pipeline safety engineers work closely with operators of small gas systems (municipal utilities and master meters) to help them operate a safe and efficient gas system.

Pipeline safety engineers are required to pass a series of eight courses given by the Transportation Safety Institute in Oklahoma City within three years of being hired.

Additional information pertaining to Pipeline Safety is found in the Reports Section.

Energy Policy

Energy Policy Director Morgan "Bob" Pauley oversees the Energy Policy Division, which evaluates actions by several federal agencies. The division also evaluates proposed rulings and prepares responses to the Federal Energy Regulatory Commission.

During this fiscal year, the division advised the Commission on competition issues in the gas and electric industries and monitored the activity of the federal government and other state governments to introduce competition into the energy industries. The division also provided advice on the issues of cost of capital, fair rate of return, fair value rate base, company financing, alternative ratemaking plans, Demand Side Management and Integrated Resource Plans.

To monitor federal, regional and state regulatory issues and trends, members of the division belong to various professional organizations, as well as the National Association of Regulatory Commissioners.

The division assists in preparing the State Utility Forecasting Group's studies on the future requirements for electric power. The division assisted in the writing of the Commission's 1999 report to the Regulatory Flexibility Committee of the Indiana General Assembly related to the energy industry.

Engineering

Director of Engineering Jerry Webb oversees the Engineering Division, which advises the Commission on technical matters in the electric, gas, water, and waste-water industries. Cost of service studies, rate design, utility plant in service, depreciation practices, reliability and expansion plans are analyzed.

The division makes recommendations to the Commission regarding 30-day filings, which are requests from utilities for approval of new rates, changes to non-recurring charges, altered rules and regulations or changes in periodic trackers. This process is designed to allow these types of requests to be reviewed and approved by the Commission in a more expeditious and less costly manner than a formally docketed case. The division staff works closely with utilities and other interested stakeholders to ensure the requests conform to the Commission's objectives.

The division ensures tariffs properly recover Commission approved revenue requirements and is the custodian of all tariffs. The division assists the Consumer Affairs Division with billing matters and service complaints that sometimes require field investigations. The division also maintains territorial service maps for electric utilities, and compiles yearly comparisons of residential utility bills, which can be found in the Reports Section. Engineering staff also serve on regional and national regulatory groups to further the goals of regulation and to keep abreast of issues. Mr. Webb is a past President of the National Conference of Regulatory Utility Commission Engineers.

Rates

Under the supervision of Rates Director Michael Gallagher, the Rates Division assists the Commissioners and Administrative Law Judges by analyzing pre-filed testimony and exhibits, attending evidentiary hearings, preparing questions for witnesses, and compiling data for Commission Orders. The Rates Division also conducts examinations of financial information for fuel and gas cost adjustments. In selected cases, division staff provides testimony in proceedings before the Commission.

This Division maintains the Commission's collection of annual reports from about 375 utilities. Certain utilities, such as resellers of inter-exchange services, WATS, radio common carriers and cellular telephone companies are not required to file annual reports due to the Commission's deregulation or the withdrawal of utilities from Commission jurisdiction. The Division conducts periodic reviews of all publicly-, municipally- and cooperatively-owned utilities with more than 5,000 customers. This review of about 110 utilities ensures that the rates and charges of the utilities subject to this review are reasonable and sufficient.

The division calculates the public utility fee billing rate, which is based upon the Commission's upcoming budget and the intrastate operating revenue of about 800 investor-owned, not-for-profit and cooperative utilities. A calculation of the 1998-99 public utility fee billing rate and a listing of each utility's contribution follows in the Reports Section.

The Division assisted in the Commission's 1999 Telecommunications and Energy Reports to the General Assembly's Regulatory Flexibility Committee.

State Utility Forecasting Group

F. T. Sparrow, Director

The State Utility Forecasting Group, SUFG, was established by state law in 1985 to provide the Commission with an impartial projection of the future growth of electric use in the state. The SUFG's offices are located at Purdue University.

The Commission released the most recent SUFG report on December 18, 1996. The study predicted that with no change to current regulation, "real" electricity prices, or those adjusted for inflation, will decline in Indiana until the end of the century but increased rates are expected beyond the year 2000. The SUFG is expected to issue its most recent report in late 1999.

Should the electricity industry be opened to competition and consumers be allowed to choose their supplier, the study predicts that the decreases would be even greater; however, the price advantage would disappear in 10 years and prices would begin to climb.

The study predicted that electricity sales will increase annually by 2.4 percent in the commercial sector, by 2.1 percent in the industrial sector and 1.4 percent in the residential sector for an overall average of 2 percent per year.

The SUFG also provides information for the General Assembly's Regulatory Flexibility Committee and testifies in certificates of need proceedings before the Commission.

Out-of-state travel	98,700	74,577
	-----	-----
TOTALS	5,774,847	5,054,316

The IURC is funded solely by utility fees. The total amount of fees billed to Indiana utilities in the 1998-99 fiscal year was \$8,762,523. These fees provide funds for the Commission's budget, the budgets of the Office of the Utility Consumer Counselor, the Utility Regulatory Nominating Committee and other utility regulatory functions. The utility fee paid by each public utility is calculated by applying the fee billing rate of 0.001000728 to gross intra-state operating revenues of that utility.

CALCULATIONS OF PUBLIC UTILITY FEE

	<u>99-00 Budget</u>	<u>98-99 Reversions</u>

Arranged chronologically by type of utility

WATER AND SEWER

UNITED WATER RATES CHANGE

Cause Nos. 41406, 41407

July 8, 1998

The Commission approved a joint settlement agreement from United Water West Lafayette Inc., United Water Indiana Inc., and the Office of Utility Consumer Counselor to increase the utility's water rates. Under the terms of the agreement United Water is authorized to increase the rates for its West Lafayette Operations by 16.07 percent, its Warsaw Operations by 16.93 percent, its Mooresville Operations by 29.17 percent, and its Winchester Operations by 9.68 percent.

United Water had originally sought to increase its West Lafayette rates by 25 percent, its Warsaw rates by 23.17 percent, its Mooresville rates by 37.15 percent, and its Winchester rates by 24.36 percent.

MAPLETURN UTILITIES RATES DECREASED

Cause No. 41194

July 8, 1998

The Commission approved an agreement from Mapleturn Utilities and the Office of Utility Consumer Counselor to decrease the not-for-profit utility's rates. As a result of the agreement, Mapleturn immediately reduced the rates it charges for sewer service by 10 percent.

DALECARLIA UTILITIES ASSIGNED TO FAIRWAYS ASSOCIATION

Cause No. 41126

July 8, 1998

The Commission voted unanimously to assign Dalecarlia Utilities' indeterminate permit and certificate of territorial authority to the Fairways Association, Inc., a neighborhood association in the Dalecarlia service territory.

The Commission's action is part of an investigation into the operations and management of Dalecarlia Utilities initiated by the Office of Utility Consumer Counselor.

CITY OF LAFAYETTE WATER RATES INCREASE

Cause No. 41116

August 5, 1998

The Commission approved a request from the City of Lafayette to increase the rates charged by the city for water service. Under a new rate schedule approved by the Commission, water rates will increase by 30 percent across-the-board.

Lafayette requested the increase the finance improvements to its water system.

CLINTON TOWNSHIP WATER RATES INCREASE

Cause No. 40945

August 12, 1998

The Commission approved a request from the Clinton Township Water Company and the Office of Utility Consumer Counselor authorizing the utility to increase its rates by 10.77 percent across-the-board. Clinton Township requested the additional revenue to finance its capital improvement plan.

WEDGEWOOD PARK WATER RATES INCREASE

Cause No. 40910-U

August 12, 1998

The Commission approved a settlement agreement submitted by the Wedgewood Park Water Company and the Office of Utility Consumer Counselor authorizing the utility to increase its water rates by 37.23 percent.

BRIARWOOD UTILITIES TRANSFERRED

Cause No. 41261

October 14, 1998

The Commission approved the transfer of control of Briarwood Utilities to the Monroe County Regional Sewer District. Once the transfer is complete, customers of the former Briarwood system will be charged the same rates as those charged by the Monroe County Regional Sewer District.

WATER AND SEWER

RIVERSIDE WATER RATES INCREASE

Cause No. 40974-U

November 18, 1998

The Commission approved a request from the Riverside Water Company to increase its rates by 23.53 percent across-the-board.

The rate increase was the first change in rates for the utility since 1990.

WATSON RURAL WATER RATES INCREASE

Cause No. 41057

November 25, 1998

The Commission authorized the Watson Rural Water Company to increase its rates by 99.9 percent across-the-board as part of a comprehensive capital improvement plan for the utility.

INDIANA-AMERICAN ACQUIRES FARMERSBURG MUNICIPAL

Cause No. 41290

December 2, 1998

The Commission approved the transfer of the Farmersburg municipal water utility to the Indiana-American Water Company, Inc.

As a result of the transfer, Indiana-American will apply the rates approved for its Wabash Valley Operations to the Farmersburg system.

EDWARDSVILLE WATER RATES INCREASE

Cause No. 41201

December 9, 1998

The Commission approved a request from the Edwardsville Water Company and the Office of Utility Consumer Counselor authorizing the utility to increase its rates by 16.9 percent across-the-board.

The utility requested the additional revenue to finance improvements to its system.

TOWN OF FILLMORE ESTABLISHES WATER UTILITY

Cause No. 41339

December 22, 1998

The Commission approved request from the town of Fillmore to issue waterworks bonds and to establish a schedule of rates and charges for its new water utility, the Fillmore Municipal Water Utility.

The Fillmore Municipal Water Utility will purchase its water wholesale from Greencastle and then resell to its customers.

RAMSEY WATER RATES INCREASE

Cause No. 41202

December 22, 1999

The Commission authorized the Ramsey Water Company to increase its rates by 35.7 percent across-the-board. The utility will use the additional revenue to finance improvements to its system.

The rate increase was approved for an interim period until the utility conducts a more recent cost-of-service study.

NORTHWEST INDIANA ACQUIRES PEOPLE'S WATER

Cause No. 41322

February 3, 1999

The Commission approved the sale of People's Water Company to the Northwest Indiana Water Company.

The People's Water Company provided water utility service to approximately 800 customers in the Black Oak neighborhood of Gary. Northwest Indiana Water provides water service to approximately 62,000 customers in parts of Lake and Porter County, including the city of Gary.

WATER AND SEWER

OUCS ORDERED TO FIND OPERATOR FOR SHADED ACRES WATER CO.

Cause No. 39600

February 10, 1999

The Commission order the Office of Utility Consumer Counselor to locate an interim operator for the Shaded Acres Water Company.

The utility had its rights and privileges as an Indiana corporation revoked in 1997 for failing to meet the filing requirements of the Secretary of State's office.

DIRECTIVES ISSUED TO UTILITY CENTER

Cause Nos. 41187

February 25, 1999

The Commission, after investigating the operations and management of Utility Center, Inc., since June 1998, ordered the utility to comply with the following mandates:

- maintain its interconnection with the City of Fort Wayne's water system;
- develop and file long-term master plans for its water and sewer systems by April 1;
- file monthly progress reports on water system improvements and sewer system improvements;
- file monthly reports for iron content in its water system;
- file a monthly report of customer complaints;
- receive outside training for responding to customer service inquiries; and,
- set forth a written policy for handling customer service issues.

The Commission has continued to closely monitor the operations of Utility Center and its successor AquaSource, Inc.

BEDFORD WATER RATES INCREASE

Cause No. 40517

March 22, 1999

The Commission approved a settlement from the City of Bedford and the Office of Utility Consumer Counselor for a two-step rate increase in the city's water rates.

Under the terms of the agreement, Bedford will immediately be allowed to implement a 23.33 percent increase in its water rates as Step One. Under Step Two, the city will increase its water rates by an additional 22.99 percent after it completes capital improvements to its water system.

SOUTH HAVEN RATE INCREASE DENIED, INVESTIGATION INITIATED

Cause Nos. 40886 & 41410

March 22, 1999

The Commission denied a petition from South Haven Sewer Works, Inc., to increase its rates by 32.23 percent and subsequently initiated an investigation into utility's management practices.

The Commission cited the following incidents that have lead to its investigation of South Haven:

- use of personnel to perform non-utility functions;
- its customer service record;
- its misallocation of expenses; and,
- its treatment of industrial waste without an appropriate rate structure.

EMERGENCY RATE INCREASE APPROVED FOR PAOLI

Cause No. 41405

April 14, 1999

The Commission approved a joint request from the town of Paoli and the Office of Utility Consumer Counselor authorizing the municipal water utility to immediately increase its rates by 24 percent on an interim, emergency basis.

WATER AND SEWER

AMERICAN SUBURBAN RATES INCREASE

Cause No. 41254

April 14, 1999

The Commission approved a joint settlement agreement submitted by the Office of Utility Consumer Counselor and American Suburban Utilities, Inc. Under the terms of the agreement, American Suburban is authorized to increase its rates through two phases.

American Suburban is authorized to increase its sewer rates by 87.12 percent as the first step of the rate change. Under the second phase, American Suburban sewer rates may be increased by an additional 74.8 percent after March 31, 2000.

The utility had petitioned the Commission for authority to increase its rates initially by 114.93 percent with an additional 49.7 percent increase to follow.

INDIANA-AMERICAN ACQUIRES WATSON RURAL WATER

Cause No. 41383

April 21, 1999

The Commission approved the acquisition of Watson Rural Water Company by Indiana-American Water Company. Indiana-American will apply the rates for its Southern Indiana operations to its newly acquired system in Cementville.

As a result of the transfer, the monthly rates for residential customers on the Cementville system will decrease by nearly 20 percent.

FAIRWAYS WATER, LAKE DALECARLIA WASTE DISTRICTS APPROVED; DALECARLIA INVESTIGATION COMPLETED

Cause No. 41126

May 26, 1999

The Commission completed its investigation of Dalecarlia Utilities, Inc., and approved a purchase agreement that permanently transferred Dalecarlia's water utility to the Fairways Regional Water District and its sewer utility to the Lake Dalecarlia Regional Waster District.

WASHINGTON TOWNSHIP WATER RATES INCREASE; UTILITY IMPROVEMENTS TO BENEFIT MONROE, MORGAN COUNTIES

Cause No. 41411

June 16, 1999

The Commission authorized the Washington Township Water Corporation of Monroe and Morgan Counties to increase its utility rates by 37.31 percent across-the-board. The Commission's order also allows the water utility to finance capital improvements to its system.

Washington Township originally requested a 51 percent rate increase.

CHANDLER WATER RATES INCREASE

Cause No. 41124

June 16, 1999

The Commission approved an agreement between the Chandler Municipal Waterworks and the Office of Utility Consumer Counselor to increase water rates by 25.9 percent across-the-board to finance an improvement project.

The original request called for an increase of 34 percent.

ELECTRIC

COMMISSION RELEASES ANNUAL ELECTRIC BILL SURVEY July 1998

The Commission released its annual comparison of residential electric rates for utilities under its jurisdiction. The survey showed that the average monthly residential electric bill decreased for the fourth straight year. The survey showed that rates decreased by \$0.05, down to \$64.77, for 1,000 kWh.

According to the survey, the most expensive residential rates are charged by the Northern Indiana Public Service Company, and the least expensive rates are charged by Centerville Municipal Electric.

JACKSON COUNTY REMC RATES INCREASE Cause No. 41092 July 15, 1998

The Commission approved a request from the Jackson County Rural Electric Membership Corporation that it be allowed to increase its rates. The Commission granted Jackson County REMC authority to increase its rates by 10.17 percent. The utility had requested a 10.6 percent rate increase.

ANDERSON ELECTRIC RATES INCREASE Cause No. 41140 August 19, 1998

The Commission approved a joint agreement submitted by Anderson Municipal Light & Power and the Office of Utility Consumer Counselor.

Under the terms of the approved agreement, Anderson Municipal Light & Power was given authority to raise its rates by 3.55 percent.

NEGOTIATING TEAM APPOINTED IN AEP/CSW MERGER PROCEEDING Cause No. 41210 September 2, 1998

The Commission appointed a negotiating team charged with attempting to negotiate a settlement of the issues being investigated related to the merger of American Electric Power and Central and South West Corporation.

The Commission initiated an investigation into the merger of AEP and CSW on June 29, 1998.

BARGERSVILLE ELECTRIC RATES INCREASE Cause No. 41174 December 16, 1998

The Commission approved an agreement jointly submitted by the town of Bargersville and the Office of Utility Consumer Counselor regarding the town's electric rates.

The settlement allows Bargersville to increase the rates charged by its municipal electric utility by 1.5 percent.

IURC INITIATES INVESTIGATION INTO FAC PROCEEDINGS Cause No. 41363 January 20, 1999

The Commission initiated a generic investigation into fuel cost adjustment charge proceedings to determine if the existing FAC procedures are sufficient to define the appropriate treatments of wholesale power transactions.

The impetus of the investigation was the spiking of purchase power prices on the spot market during June 1998.

AES GRANTED AUTHORITY TO BUILD MERCHANT PLANT Cause No. 41361 March 11, 1999

The Commission approved a request from AES Greenfield LLC, an affiliate company of AES Corporation, to build and operate a gas-fired combustion turbine peaking plant in southern Indiana. The power produced by the AES plant will be sold only on the wholesale market.

The generating capacity of the approved plant is 400 MW.

ELECTRIC

SIGECO COGENERATION PLANT APPROVED

Cause No. 41286

March 24, 1999

The Commission approved a plan from Southern Indiana Gas & Electric Company to begin construction of a cogeneration plant. SIGECO plans to sell steam generated by the coal-powered plant to GE Plastics in Mount Vernon, Indiana.

The estimated generating capacity of the plant is 42 MW of electric power.

SETTLEMENT APPROVED IN AEP COOK CASE

Cause No. 38702-FAC 40-S1

March 30, 1999

The Commission approved a settlement agreement jointly submitted by AEP, the Office of Utility Consumer Counselor, the Citizens Action Coalition, and Indiana Consumers for Fair Utility Rates related to the D.C. Cook Nuclear Power Plant outage.

The settlement resulted in a \$55 million credit to AEP's Indiana customers for the months of July, August, and September 1999.

IPL PLANT APPROVED

Cause No. 41337

April 7, 1999

The Commission approved a settlement agreement submitted by Indianapolis Power & Light, the Office of Utility Consumer Counselor, the Citizens' Action Coalition, and IPL Industrial Group related to the utility's plans to operate additional combustion turbines to meet peak power demands.

The new turbines have an estimated generating capacity of 200 MW.

DUKE AUTHORIZED TO BUILD MERCHANT PLANT IN VERMILLION COUNTY

Cause No. 41388

April 7, 1999

The Commission approved a request from Duke Energy Vermillion LLC, an affiliate of Duke Energy Corporation, to build and operate a gas-fired merchant plant in Vermillion County. The power produced by the Duke plant will be sold only on the wholesale market.

The generating capacity of the approved plant is 640 MW.

AEP/CSW MERGER SETTLEMENT APPROVED

Cause No. 41210

April 26, 1999

The Commission approved a settlement agreement negotiated by the Commission's negotiating team and representatives of AEP and CSW related to the merger of the two electric utilities.

Under the terms of the agreement, AEP's Indiana customers are projected to receive \$66.2 million in credits over an eight-year period. AEP also agreed to establish performance standards aimed at improving customer service and system reliability. In exchange, the Commission pledged not to oppose the merger before federal regulators.

MIDWEST ISO TO HEADQUARTER IN INDIANA

June 1999

The Midwest Independent System Operator (MISO) Board of Directors selected Indiana for the organization's headquarters. The MISO anticipates it will employ about 150-175 people in high-technology jobs.

The MISO expects to be operational in the last half of 2000.

NATURAL GAS

SIGECO-MIDWESTERN GAS TRANSMISSION PROCEEDING STAYED

**Cause No. 41197
January 27, 1999**

The Commission, voting 4-1, denied a motion from Midwestern Gas Transmission Co. to dismiss a case involving the transportation of natural gas to a new industrial consumer. SIGECO petitioned the Commission to issue a “cease and desist” order prohibiting Midwestern Gas Transmission from offering gas distribution service in Indiana.

The Commission decided to deny Midwestern’s motion and stay its proceeding related to this issue while the question of federal preemption of state law and authority is pending before “proper reviewing authorities.”

NATURAL GAS SURVEY RELEASE February 1999

The Commission released its annual comparison of residential gas rates for the 24 gas utilities under its jurisdiction. The survey shows that residential gas bills are lower for most Hoosiers this year compared to last year.

According to the survey, average bills for residential customers of Indiana’s four largest natural gas utilities are lower than they were in 1998. The decline in natural gas rates is consistent with those nationwide due lower than forecast natural gas demand.

NISOURCE BIDS FOR COLUMBIA ENERGY April-June 1999

NiSource, the parent company of Northern Indiana Public Service Company, has offered to acquire Columbia Energy Group, a Virginia-based energy services company providing service to customers in 34 states and the District of Columbia.

To date, NiSource has offered \$68 per share, \$5.7 billion, to purchase Columbia Energy.

OUCCLAWRENCEBURG SETTLEMENT APPROVED; RATES STAY THE SAME

**Cause No. 41377
May 12, 1999**

The Commission approved an agreement jointly submitted by the Office of Utility Consumer Counselor and Lawrenceburg Natural Gas Company that allows the utility to increase its operating revenue without changing its rates.

Lawrenceburg had initially sought a 2.5 percent rate increase.

NIPSCO CHOICE EXPANDED June 11, 1999

The NIPSCO “Choice” program was expanded to encompass NIPSCO’s entire service territory, making choice of gas supplier available to all of the utility’s natural gas customers. Of NIPSCO’s eligible customers, 4 percent of residential customers and 21 percent of industrial and commercial customers were participating in the pilot program.

The following gas marketers are participating qualified suppliers in the program: NESI Integrated Energy Resources Inc. (a NIPSCO affiliate); NICOR Energy, LLC; Volunteer Energy Corporation, and Columbia Energy Services Corporation.

NIPSCO and its affiliate NESI serve 87 percent of residential customers and the majority of commercial customers in the program.

IEI, SIGCORP SEEK COMMISSION APPROVAL OF MERGER

**Cause No. 41465
June 17, 1999**

Indiana Energy, Inc., the parent company of Indiana Gas Company, Inc., and SIGCORP, the parent company of Southern Indiana Gas & Electric Company (SIGECO) filed a joint petition seeking the Commission’s approval of their proposed merger.

Under the terms of the proposed merger, IEI and SIGCORP would merge to form a new utility holding company, Vectren. Indiana Gas and SIGECO will be subsidiaries of Vectren and continue to operate under their current names.

TELECOMMUNICATIONS

ALTERNATIVE TELEPHONE SERVICES INVESTIGATION

**Cause No. 41242
August 19, 1998**

The Commission initiated an investigation into alternative, competitive telephone services that offer services similar to extended area service.

Recently, new alternative telecommunications companies have been providing the expansion of flat-rated calling areas on a competitive basis.

The Commission voted that it is in the public interest to explore the appropriateness of the provision of these alternative, competitive forms of EAS, and to explore feasible forms of wholesale compensation between telecommunications carriers.

COMMISSION REVIEWS AMERITECH-SBC MERGER

**Cause No. 41255
September 2, 1998**

The Commission initiated a proceeding to gather information related to the proposed merger of Ameritech Corporation and SBC Communications. The Commission initiated the investigation to provide an Indiana-specific perspective to Federal Communications Commission related to the merger.

In May 1998, Ameritech, the parent company of Ameritech Indiana, announced that it had agreed to merge with Texas-based SBC.

LAPAZ TELEPHONE COMPLAINT DISMISSED; EAS RULES REVIEWED

**Cause No. 41127
September 29, 1998**

The Commission dismissed a complaint brought by ten ratepayers of Sprint/United Telephone Company related to the implementation of an 1996 Extended Area Service order which expanded the LaPaz/Lakeville exchange's local calling area to include South Bend.

The complaint alleged that signatures were forged on the initial petition and that there were flaws in the balloting process. As a result of this proceeding, the Commission initiated a rulemaking to consider amending the current EAS rules.

COMMISSION HAS QUESTIONS ABOUT AMERITECH- SBC MERGER

**Cause No. 41255
September 30, 1998**

The Commission directed Ameritech Indiana to provide details about the expected impact on Indiana of its proposed merger with SBC Communications. The Commission believes that the merger could have a direct effect on Ameritech Indiana customers, telephone competition in Indiana, employment levels, and quality of service.

The Commission will use the information gathered related to the merger to provide the Federal Communications Commission with its perspective and recommendations related to the merger.

TELECOMMUNICATIONS

GENERAL PRINCIPLES ISSUED FOR IMPLEMENTING TA-96

Cause No. 40785

October 28, 1998

The Commission established guidelines for Indiana incumbent local telephone companies to bring their retail rates and costs into compliance with the federal Telecommunications Act of 1996.

The order establishes “subsidy tests” necessary to implement Section 254(k) of TA-96. The subsidy tests require that a service subject to competition cannot be subsidized by a service that is not competitive.

The issues involved with the fair and reasonable rebalancing of rates are:

- confiscation claims and liability;
- prohibited subsidization between customer groups;
- services included in the definition of universal service; and,
- a determination of joint and common costs of the telecommunications network and their allocation to service groups and services.

The Commission also adopted TA-96’s definition of universal service. In effect, universal service is basic local service and access to a variety of intrastate, end-user services.

Finally, any company seeking to rebalance its rates must submit cost studies that place each service into one of three service groups:

- intrastate regulated services included in the definition of universal service;
- intrastate regulated services not included in the definition of universal service; and,
- intrastate non-regulated services not included in the definition of universal service.

SLAMMING, CRAMMING RULES ISSUED

November 12, 1998

The Commission issued and approved its final rules related to telephone slamming and cramming, giving Indiana telephone customers a procedure to dispute incidents of slamming and/or cramming.

The rules, promulgated in accordance with House Enrolled Act 1297 (1998) which made slamming and cramming illegal in Indiana, protect consumers from financial responsibility for any charges resulting from a company billing a customer without consent.

AT&T GRANTED AUTHORITY TO SET ITS OWN LOCAL CALLING SCOPE

Cause No. 41077

November 12, 1998

The Commission lifted the interim calling scope restriction that was placed on AT&T when it received its Certificate of Territorial Authority to operate as a facilities-based provider of local telephone service.

Under the interim restriction, AT&T’s local calling scope was limited to the incumbent local telephone company’s current calling scope.

COMMISSION REVIEWS GTE-BELL ATLANTIC MERGER

Cause No. 41332

November 18, 1998

The Commission initiated proceedings to gather Indiana-specific information related to the proposed merger of GTE Corp. and Bell Atlantic Corp. The companies announced their intent to merge in July 1998.

The investigation was initiated by the Commission to determine if the merger would be in the public interest and its possible impact on the state of telephone competition, quality of service, and rates in Indiana.

TELECOMMUNICATIONS

ACCESS RATE REFORM ADDRESSED

Cause No. 40785

December 9, 1998

The Commission determined that incumbent local telephone companies should continue the practice of “mirroring” FCC established access rate structures. While the Commission determined that the ILECs should continue to mirror the access rate structure, access rate levels will be determined as part of comprehensive company-specific rate rebalancing from cost studies filed with the Commission.

In order for reforms to access carrier rate charge levels to be implemented, each ILEC must conduct cost studies that use the cost of regulated services that are not considered part of universal service to determine its access charges.

Finally, the Commission established that retail rates for intrastate interexchange toll services must be geographically average in order to comply with Section 254(g) of TA-96. Under TA-96, rates charged to customers in rural and high cost areas by interexchange providers cannot be higher than the rates charged to customers in urban areas.

TA-96 RATE COMPLIANCE INVESTIGATIONS LAUNCHED

Cause Nos. 40785-S1, 40785-S2, 40785-S3

January 20, 1999

The Commission initiated three separate investigations into the state’s three largest telephone companies’ rates. The investigation allows the Commission to gather and review evidence pertaining to the rates of Ameritech, GTE, and Sprint and their compliance with TA-96.

Ameritech, GTE, and Sprint collectively serve over 3.3 million of the state’s 3.4 million access lines.

TIME-WARNER/AMERITECH AGREEMENT TREATS CALLS TO INTERNET PROVIDERS AS LOCAL CALLS

Cause No. 41097

February 3, 1999

The Commission acted on a complaint filed by Time-Warner Telecom against Ameritech for violating the companies’ interconnection agreement. Time-Warner indicated that Ameritech violated the agreement by not treating calls to Internet Service Providers (ISPs) as local calls.

The Commission ordered Ameritech and Time-Warner to measure ISP calls as local calls for the purpose of reciprocal compensation, as specified in their interconnection agreement. Similar interpretations of Ameritech’s interconnection agreements as they relate to the treatment of ISP calls have been made in Illinois, Ohio, Michigan, and Wisconsin.

InTRAC SURCHARGE LOWERED

Cause No. 39880-INTRAC 3

February 10, 1998

The Commission approved a request from the Indiana Relay Access Corporation for the Hearing and Speech Impaired (InTRAC) to lower the monthly surcharge imposed on all Indiana telephone customers by 30 percent.

All local telephone companies were ordered to lower the monthly InTRAC surcharge from \$0.10 to \$0.07 beginning April 1, 1999.

COMMISSION GAINS CLEAR AUTHORITY OVER SLAMMING, CRAMMING

February 16, 1999

The Commission gained clear authority to act against telephone companies that switch or expand customers’ telephone services without their authorization as Governor Frank O’Bannon signed the agency’s rules into law.

Under Indiana law, telecommunications companies determined to have slammed or crammed customers face revocation of their certificates that allow them to operate in Indiana. The Commission may also refer slamming and cramming violations to the Attorney General for prosecution of deceptive sales practices.

TELECOMMUNICATIONS

NEW WHOLESALE DISCOUNT RATES SET FOR AMERITECH

Cause No. 41055
February 25, 1999

The Commission ordered Ameritech to use new wholesale discount rates when selling its local telephone services to resale-based competitors.

Under the new wholesale rates approved by the Commission, a resale-based competitor that uses Ameritech's operator services can purchase service from Ameritech at a 21.46 percent discount from the retail rate charged to Ameritech business and residential customers. If a resale-based competitor does not use Ameritech's operator services, it can purchase service from Ameritech at a 25.04 percent discount rate.

Previously, Ameritech's wholesale discount rate was 21 percent regardless of whether or not the competitor used Ameritech's operator services.

COMMISSION STREAMLINING LOCAL TELEPHONE COMPANY CERTIFICATION PROCESS

Cause No. 39983
April 28, 1999

The Commission initiated an investigation into streamlining the initial requirements and subsequent tariff approval procedures for companies seeking authority to resell bundled local telephone service.

Proposed regulatory changes under the Commission's consideration are:

- adopting a standardized form for use by competitive local exchange carriers (CLECs) petitioning the IURC for a certificate of territorial authority (CTA) to resell local telephone services;
- implementing new tariff approval procedures that will allow a CLEC to adopt the IURC-approved tariff of another CLEC and to provide service based on the interim tariff that is subject to the IURC's final approval;
- requiring a CLEC to supply the IURC the address and telephone number of customer service representatives; and,
- requiring a CLEC to notify the IURC each time it begins to provide service in an Indiana exchange.

Since the passage of the federal Telecommunications Act of 1996, the Commission has issued more than 120 certificates to companies seeking to compete in the local telephone market.

OPPORTUNITY INDIANA INVESTMENTS REVIEWED

Cause No. 40849
April 28, 1999

After reviewing company expenditure reports related to Opportunity Indiana, the Commission directed Ameritech to prepare a plan detailing how the telephone company will fulfill its commitment to invest \$120 million in telecommunications infrastructure investments for schools, hospitals, and government centers.

Under Opportunity Indiana, Ameritech was allowed to operate under an alternative regulatory plan where regulation was relaxed over Ameritech's provision of services like Centrex and 800 WATS Line service. In exchange, Ameritech committed to place a cap on the price of basic local telephone service and to invest \$20 million annually in the provision of advanced telecommunications facilities to schools, hospitals, and government centers over a six year period beginning in 1994.

AMERITECH-SBC MERGER SUBJECT TO COMMISSION JURISDICTION

Cause No. 41255
May 5, 1999

The Commission asserted its regulatory authority over the proposed merger of Ameritech Corporation with SBC Communications, Inc., and concluded that the proposed merger must be approved by the IURC.

Indiana law subjects sales, transfers, or leases of a public utility's "franchise, works, or system" to IURC approval. The IURC found that a transaction in which at least 50 percent of a public utility's stock is sold to a different entity constitutes the transfer of that public utility's "franchise, works, or system."

Under the terms of the Ameritech-SBC merger, while Ameritech would continue to own all of the stock of Ameritech Indiana, Ameritech would be transferred to and become a subsidiary of SBC.

TELECOMMUNICATIONS

GTE-BELL ATLANTIC MERGER SUBJECT TO COMMISSION JURISDICTION

Cause No. 41322

May 26, 1999

The Commission asserted its regulatory authority over the proposed merger of GTE Corporation with Bell Atlantic Corporation and concluded that the proposed merger must be approved by the IURC.

Indiana law subjects sales, transfers, or leases of a public utility's "franchise, works, or system" to IURC approval. The IURC found that a transaction in which control of a public utility's corporate parent is sold to a different entity constitutes the transfer of that public utility's "franchise, works, or system."

Under the terms of the GTE-Bell Atlantic merger, GTE will become a subsidiary of Bell Atlantic.

THE YEAR 2000 CHALLENGE

COMMISSION MONITORS UTILITY READINESS FOR Y2K

Cause No. 41327

The IURC initiated investigation into the Year 2000 Problem (Y2K) on November 12, 1998, to assure that Indiana's utility industry is preparing for the new millenium.

Over the course of the investigation, the Commission has taken on the role of coordinator and facilitator of information sharing amongst utility industries, companies, and business and consumer groups. In an effort to promote this communication, the Commission hosted a two-day workshop where over 300 people representing various utility companies and consumer groups exchanged information related to preparing for Y2K.

The Commission not only coordinated its efforts regarding Y2K with Indiana's utility industry, but also worked with various federal, state, and local governmental entities to coordinate public outreach related to the questions surrounding the Year 2000.

Based upon findings from its investigation, the Commission is impressed by the level of preparation and coordination Indiana's utility industry has demonstrated for Y2K. While the preparation has been impressive, the Commission will continue to monitor utilities' preparations as they develop contingency plans for the Year 2000 conversion.
